# Vamsi Krishna Chandaluri

**Senior Full Stack Engineer** | TypeScript | React | Node.js | NestJS | PostgreSQL

Hyderabad, India | cvamsik99@gmail.com

linkedin.com/in/vamsikrishnachandaluri | github.com/CVamsi27 | Portfolio

## PROFILE

Full-stack engineer with **5+ years of software development experience** across enterprise applications and healthcare SaaS. Build React/TypeScript interfaces, NestJS APIs and PostgreSQL data flows, with emphasis on reliable workflows, access control and observable operations.

## PROFESSIONAL EXPERIENCE

**Docita - Healthcare SaaS | Hyderabad, India**

Full Stack Engineer (Independent SaaS venture) | Aug 2025 – Present

- Built a **multi-tenant healthcare SaaS** end to end, spanning scheduling, patient records, prescriptions, billing and inventory in a TypeScript monorepo.
- Build **React/Vite** clinical forms with shared Zod validation, React Hook Form and TanStack Query, handling pending submissions, API errors and server-state updates.
- Develop **NestJS, Prisma and PostgreSQL** APIs with clinic-scoped authorization, resource policies and transactional writes; implement Row-Level Security policies, field encryption and sensitive-data audit logging.
- Implement **PostgreSQL-backed background jobs and a transactional outbox** with bounded retries and dead-letter replay; integrate HMAC-verified payment webhooks and asynchronous document workflows.
- Built an **internal operational dashboard** for clinic activity, API latency percentiles and error rates; maintain Jest/Vitest/Playwright checks for API, worker and frontend changes.

**MAQ Software | Hyderabad, India**

Senior Software Engineer | Mar 2025 – Jul 2025

Software Engineer | Oct 2021 – Feb 2025

- Developed recruitment and internal-workflow applications with **TypeScript, React and Node.js**; centralized shared service logic and input validation across application modules.
- Profiled **REST APIs and PostgreSQL queries**; addressed query bottlenecks with indexing, pagination, targeted caching and removal of N+1 access patterns.
- Built reusable React and TypeScript components for responsive interfaces, standardizing loading, validation and error states with keyboard and screen-reader support.
- Improved delivery practices with **GitHub Actions, Jest and release checks**; mentored engineers through code reviews, debugging and design discussions.

**Cognizant | Hyderabad, India**

Programmer Analyst Trainee | Feb 2021 – Oct 2021

- Built and integrated **4 Spring Boot services** for product, vendor and checkout workflows in an e-commerce training platform during a structured graduate associate programme.

## TECHNICAL SKILLS

**Frontend:** TypeScript, JavaScript, React, Vite, TanStack Query, React Hook Form, Zod, Tailwind CSS, accessibility; Next.js (working depth)

**Backend & Data:** Node.js, NestJS, Express, REST/OpenAPI, WebSockets, SQL, PostgreSQL, Prisma, schema design, indexing, transactions

**Architecture & Security:** System Design, multi-tenant SaaS, ABAC, Row-Level Security, JWT, transactional outbox, idempotency, retries/DLQ, HMAC webhooks

**Testing & Delivery:** Jest, Vitest, Playwright, React Testing Library, Git, GitHub Actions, CI/CD, Docker, AWS RDS, Fly.io, Cloudflare Workers/R2, Turborepo, pnpm

## EDUCATION & LANGUAGES

**B.Tech, Computer Science and Engineering** | K L University, India | 2021 | CGPA 8.67/10

**Languages:** English (professional working proficiency)
