PROFILE

Product-focused Full Stack Engineer with **5+ years of experience** delivering production web applications with TypeScript, React, Node.js, NestJS, and PostgreSQL. Currently leading end-to-end clinic workflows at Docita, used by **25+ clinics** and supporting **1,000+ appointments/month**—from UX and product needs to APIs, data models, tested releases, and cloud delivery.

PROFESSIONAL EXPERIENCE

Docita (Healthcare SaaS Platform) | docita.work | Hyderabad, India

Founding Engineer | Aug 2025 – Present

- Owned end-to-end delivery of multi-tenant clinic workflows for **25+ clinics** and **1,000+ appointments/month**, covering scheduling, patient records, prescriptions, billing, and clinic operations.
- Built React 19 and Vite 6 staff workflows with React Router, Tailwind CSS, TanStack React Query, shared components, and accessible UX for operational users.
- Engineered NestJS and PostgreSQL APIs for scheduling, patient records, prescriptions, and billing, covering schema design, migrations, indexes, DTO validation, pagination, tenant-aware access, and query-quality guardrails.
- Implemented JWT and resource-level authorization plus a durable background-worker boundary for reliable clinic workflows.
- Built automated quality gates with Jest/Vitest unit and API integration/E2E tests plus Playwright critical-flow and accessibility checks; deployed through GitHub Actions/Docker on Fly.io, Cloudflare/R2, and AWS RDS.

MAQ Software | Hyderabad, India

Senior Software Engineer / Software Engineer | Oct 2021 – Jul 2025

- Accelerated recruitment and internal-workflow delivery by **25%** through reusable TypeScript service patterns and clearer module boundaries.
- Improved Node.js, Express, NestJS, and PostgreSQL REST API p95 latency by **30%** through query tuning, caching, and N+1 elimination.
- Created a reusable React and TypeScript component library that reduced duplicated UI while improving load performance and keyboard and screen-reader accessibility.
- Strengthened CI/CD and code-review practices with GitHub Actions, Jest, release checks, and **85%+ test coverage**; mentored 4 engineers and improved delivery predictability.

Cognizant | Hyderabad, India

Programmer Analyst Trainee | Feb 2021 – Oct 2021

- Built **4 Spring Boot microservices** for Product, Vendor, Retail Shop, and Proceed-to-Buy domains.
- Configured Eureka service discovery, Zuul gateway routing, and JWT-based authorization through a dedicated Authorization Service.
- Implemented REST endpoints, JWT login and token validation, Swagger/OpenAPI documentation, and JPA/JDBC persistence for the e-commerce services.

TECHNICAL SKILLS

Core: TypeScript, JavaScript, SQL, Java, Python (familiarity)

Frontend & UX: React 19, Vite, React Router, Next.js, Tailwind CSS, TanStack React Query, React Hook Form, accessibility, Core Web Vitals

Backend & Data: Node.js, Express, NestJS, REST/OpenAPI, DTO validation, JWT/ABAC, PostgreSQL, Prisma, schema design, indexing, transactions, migrations

Quality & Delivery: GitHub Actions, Docker, Jest, Vitest, Playwright, React Testing Library, unit/integration/E2E testing, code review, performance tuning

Platform & Architecture: AWS RDS, Fly.io, Cloudflare Workers/R2, Turborepo, pnpm, multi-tenant SaaS, background jobs, idempotency, observability

EDUCATION

Bachelor of Technology, Computer Science and Engineering | K L University, Andhra Pradesh, India | Completed 2021 | 8.67 CGPA

LANGUAGES

English: Professional working proficiency
